RECENT RIOT IN CHINA

A Full Account of the Outrages in Sze-Chuan.

A LETTER FROM A MISSIONARY.

Cause of the Trouble That Resulted in the Entire Suspension of the Work of the West China Mission - How the Missionaries Escaped Down the River-Many Hardships Endured.

PHILADELPHIA, Sept. 4.—A letter has been received by Rev. F. S. Dobbins, in charge of the Baptist missionary board in this city, from the Rev. W. M. Upcraft, at Hankow, China. He also sent a newspaper called The Celestial Empire, published at Shanghai, which contains a full account of the recent riots in the Sze-Chuan province, which caused the entire suspension of work of the West China mission.

Mr. Upcraft is in charge of the mission there, a number of whose workers are from this city. In his letter, Mr. Upcraft states that the trouble began in Chentu. the capital of the province, on May 28. Three Protestant missionary societies are located there. The first warning of the trouble was the posting of a placard in several places of the city reading as follows: the city, reading as follows:

"Notice is hereby given that at present foreign barbarians are hiring evil characters to steal small children that they may extract oil from them for their use. I have a female servant named Li, who has personally seen this done. I therefore exhort you good peo-ple not to allow your children to go out. I hope you will act in accordance with

This was soon followed by an attack by a mob on the Ganadian Methodist mission, which was destroyed.

The stations of the Baptist missionary union in Sze-Chuan were at Sulchaufu, Kiating and Yachau. The first trouble was at Kiating, which was nearest to Chentu, where the riots began. On that day the streets were full of people who at first seemed peaceable, but became more aggressive and began to loot the mission's houses. A magistrate of Yachan aided the missionaries to escape down the river on a raft. A guard of soldiers was sent with them. They had trouble at several places on the river, but went safely past, and the missionaries all safely reached Suichaufu on Sunday, June 9.

Mr. Beaman of the Kiating mission, who had remained behind in a small boat, hoping to be of service to Yachau friends who might come down in boats, had a thrilling experience. During the night he was attacked by a band of robbers, who stripped him of everything he had, clothes and all. When the robbers came on his boat below Suichaufu, he jumped overboard and dived under the boat, remaining hid for some time. The robbers produed the water with spears to find him and he was at last drawn back on the boat. His life appeared in imminent danger, and several wished to kill him, but the leader of the gang was satisfied when he found the money, and finally by the kindness of the boatman, Mr. Beaman got away.

After many of the thrilling escapes the party, consisting of Mr. Hill, his wife and boy, Miss Bliss, Mr. Salquist, Mr. Viking, his wife and baby, and Mr. Upcrait, arrived at Hankow.

In speaking of their position, Mr. Upcraft says: "Our work is broken up and possessions left to the pleasure of rioters. We were 11 days going to Ischang. Delayed by wind and rain, and in constant fear of destruction from swirling whirlpools and angry rapids. Our women were true heroines. They stood the trial very nobly. After the long strain reaction must set in. While our own experience with the Chinese officials has left no ground for complaint, in other places it is different. Many think that our present degraded viceroy is at the bottom of the whole thing. It was a systematic scheme to free the province of foreign-

REVOLUTION IN SALVADOR.

The Situation There More Serious Than Generally Supposed.

SAN FRANCISCO, Sept. 4.—Advices from Salvador by the steamer Acapulco, from Acapulco, indicate that the situation there is more serious than is generally supposed. The agents of the Pacific Mail write that the country is principally under martial law, and that General Rives is threatening to descend upon San Salvador city and capture the

ruling power. On the 14th of July a startling discovery was made at the palace at San Salvador city. Gutierrez had a number of special officers on guard, four of whom were trusted servants. The four men were found stabbed to death on the morning of the 14th and the city was thrown into a great state of excitement. The police are constantly under arms and the strictest scratiny of the press has begun. The president has issued an order that no person shall be allowed on the street after 8 o'clock at night. Officers of the army suspected of disloyalty are arrested as fast as discovered.

SAN FRANCISCO, Sept. 4.—At a meet ing of the board of health yesterday the cholera question was discussed and the general opinion there was considerable danger of cholera becoming prevalent in Hawaii. A resolution was adopted reciting the fact that cholera had been reported in China and Japanese ports and in Honolulu and asking the United States government if these reports prove to be correct to take the necessary action under the quarantine laws to protect the United States ports from danger of the introduction of cholera.

AT HER MOTHERS FUNERAL. The Daughter Arrested For Causing the

Old Lary's Death. NEW YORK, Sept. 4.—The funeral of Mrs. Evalina Bliss, a wealthy lady who died last Friday, was held yesterday, and immediately afterward the daughter of the dead woman. Mrs. Alice Fleming, was arrested at the Colonial notel on a charge that she murdered her mother by poison.

The case is a mysterious and in some respects a sensational one, as the death of Mrs. Bliss gives to her daughter the income from an estate of \$300,000, left by Robert Swift Livingstone, who was the first husband of Mrs. Bliss. To Dr. Bullman, who was summoned to her bedside Friday night, Mrs. Bliss said that she had been poisoned by relatives who would be financially benefited by her death. She said that she had eaten clam chowder and a piece of

apple pie.
The doctor says that Mrs. Bliss' attendants failed to give her the medicines he left for her. He secured the dish in which the chowder had been, and a piece of the pie and gave them to the coroner. The coroner had an examination made of the dead woman's stomach by Chemist W. T. Scheele, who says that he found traces of metallic poison in the stomach and also in the dish which had contained chowder, and that it had evidently been very skilfully prepared by some one with a knowledge of poison.

Suspicion pointed to Mrs. Fleming. Detectives called for her yesterday and escorted her to the funeral, and although she was the chief mourner, three of them rode with her to Green-wood cemetery. They returned with her, and then formally placed her un-der arrest at her home. She was taken before Magistrate Simms, where she smiled and seemed entirely unworried, and the magistrate remanded her to the custody of the coroner to await the result of an inquest.

MEXICAN. RAILROADS PARALYZED. Washouts Have Entirely Cut Off All Traf-

fie and Communication. CITY OF MEXICO, Sept. 4.—There is no prospect under three days of a through train from the United States over the Mexican Central. The washouts are all north of Saltillo and no one here knows the exact state of affairs on the line. The storm in northwestern Mexico was tremendous, the most severe for many years.

The Monterey and Mexican Gulf railroads are also badly hit as several bridges were swept away. General Manager Robertson wires that the line will soon be in good shape. The great-set inconvaniance is that the Frances. est inconvenience is that no European or American mails from Kansas City eastward, are arriving. Business men are put to great inconvenience and posi-

He was appointed to his diplomatic position by Hamilton Fish, secretary of state under President Grant, and served until the close of Minister Phelps' term. He was a noted art critic and served as one of three Americans on the art award commission of the Paris exposition of 1867.

J., who was injured in the Seabe ch railway wreck at Woodlawn station Monday afternoon, died at Seney hospital at 4 o'clock yesterday morning. Poinier's injuries were at first supposed to be only slight, but it developed that he was hurt internally. Bank Boycott Failed.

WASHINGTON, Sept. 4 .- Yesterday was the day on which the boycott of national bank notes, ordered by President Sovereign of the Knights of Labor in his proclamation two months ago, was to go into effect. There was no evidence, however, that the Knights of Labor were tabooing bank notes. The national headquarters of the knights were deserted, save for the office boy, both Mr. Sovereign and Mr. Hayes, the secretary, being out of the city.

FAILED TO START UP

Cleveland Nail Works Having Some Labor Trouble.

New Men Persuaded to Turn Back and Further Trouble Is Feared-Great Activity in the Iron Market-Girl Injured in a Swing-Other Happenings in the Buckeye State.

CLEVELAND, Sept. 4. - When the Baackes wire nail works passed into the possession of the Consolidated Wire and Steel company, and it was shut down for repairs, the 400 employes declared that they would not return to work uuless they were paid the prices won by the other wire mill of Cleveland in ... strike. The company has a wage card which applies to all of its nine mills, and the rates are lower than those demanded by the many manded by the men.

Yesterday the company tried to get 40 men imported from Pennsylvania into the mill, but the strikers were alert and turned out to the number of over 200. Thre. imes the foreman piloted the Pennsylvania men to the gates of the mill and three times the strikers by gathering around them and talking to them, induced them to turn back. A large squad of police was sent to the mill, and the company placed a score of private detectives on guard. The imported workmen finally scattered, many of them declaring they would return home. Serious trouble is apprehended, as the company is determined to start the mill at its own wages.

BOOM IN IRON.

No Such Activity and Demand in the Market For Many Years.

CLEVELAND, Sept. 4.—The Western Bar Iron association held a largely attended conference here yesterday. Nearly all of the larger manufacturers of the middle and western states were either present or represented. The meeting was held behind closed doors and the members refused to make public the object of the meeting. It was learned from another source, however, that the chief subject under discussion was a proposition to again advance the price of the product of the bar mills as a result of the boom in the iron market all along the line.

A canvass of the more prominent iron dealers in this city shows that the phenomenal boom in the iron market continues in all departments of the trade. The dealers state that there has been no such activity and demand in the market for many years. Pig iron is selling at \$17 a ton and steel billets at \$24 a ton, with an advancing tendency. There is an enormous demand for structural iron and electric street rails. The mills Providence, Sept. 4.—William Jones | are running night and day at their utmost capacity.

Injured in a Swing.

PORTSMOUTH, O., Sept. 4 .- A sad accident occurred at the shoemakers' picnic Labor day, which will in all probability result fatally to Miss Carrie Kehoe. She and another young lady were swinging alternately in the swings, trusting to pass each other at the proper moment. The swing which Miss Kehoe occupied slipped, throwing her violently against the other, she receiving internal injuries. When taken home she was unconscious and bleeding pro-

Temperance Lecturer on a Spree.

CLEVELAND, Sept. 4.-W. J. McConnell, a temperance lecturer, known for his eloquence in all parts of the country, was fined \$25 and costs and sentenced to 30 days in the workhouse in police court yesterday for intoxication. LATEST BATTLE IN CUBA. Havana Dispatches of Course Claim a Span-

ish Victory.

HAVANA, Sept. 4.-Insurgent Chief Rabi, with a numerous force in combination with other bands, whose chiefs are unknown, made an impetuous attack on the vanguard and on both flanks of the column of General Linareas at Remanguanguas, province of Santiago de Cuba, with intent to seize their convoy. Lieutenant Colonel Tejeda of the guerillas repulsed the insurgents, until he was reinforced by two companies of the battalion of Antequera and one of the union battalion.

Commander Linareas routed and dispersed the insurgents, who made no further hostile demonstrations. The column arrived with their convoy at Venta Casanavo and returned Monday to Pala Soranio. The insurgents left seven killed when they retired, with a great number of wounded. The troops lost two officers and five soldiers dead and 29 wounded, according to the official report made of the engagement.

A detachment of volunteers under Major Maya met the Platedas band near Camajuani, and they report that they killed the insurgent chief Manuel Ferandex.

It is reported that the negro insurgent chief. Bermudez, has, with his own hands, killed a defenseless laborer.

CARRIAGE HELD UP.

The Passengers Robbed of All Their Valuables by a Masked Band.

OMAHA, Sept. 4 .- A band of 12 masked highwaymen held up a carriage load of people in Omaha suburb early yesterday morning and secured several hundred dollars. It is an organized gang which has long evaded the police. There were four persons in the carriage who had been in the city enjoying themselves.

When out a short distance from Bonson, and near a clump of trees, figures emerged from the shadows as if rising from the earth, and surrounded the carriage; two men held the frightened horses by their bridles and nine climbed in about them in a threatening manner, while the 12th man stood outside the circle and gave the commands. After the cautionary commands the inmates of the carriage were told to get out and line up. The four men lined up, standing on their tiptoes, with their hands above their heads. One of the robbers searched each man in turn, taking everything of value, casting the plunder upon a robe that was thrown on the ground.

When this was accomplished the four men were told to throw their hats on the ground with their coats, and, und cover of pistols were ordered into the rig and told to drive away as fast as they could. When the men reached Benson they alarmed the neighbors, who formed a posse and started for the scene of the robbery. The hats and watches were found lying on the robe where they had been thrown. Nothing else was recovered.

DURANT'S TRIAL BEGUN.

The Courtroom Crowded to Hear the

Opening Statements of the Attorneys. SAN FRANCISCO, Sept. 4.—The trial of Theodore Durant really began yesterday. The courtroom was crowded to hear the opening statement of District Attorney Barnes. At the request of the defense all witnesses in the case were excluded from the room during the address.

Though counsel for the defense said they would be willing to have Blancha Lamont's and Minnie Williams' cases tried jointly when the district attorney referred to the finding of Minnie Williams' body the defendant's counsel objected to the introduction of anything relating to the Williams murder, which he said was the basis for a separate action. The court said he would permit reference to the discovery of the body of Blanche Lamont.

At the conclusion of the opening address the opposing counsel and the court held a consultation. Then at the suggestion of the defendant's attorney, the court ordered that after recess, the jurors, the defendant, the judge and the official stenographer in charge of the sheriff visit the scene of the mur-

The City of Louisville, one of the Graham line boats, heavily loaded with passengers as well as freight, met with an accident in midlake last night, which delayed her nearly two hours and cause a great deal of worry in this city. The boat encountered the storm out in the lake and while weathering the severest part of it suffered the breaking of the piston rod on one of her engines. This pecessitated the shutting down of her machinery, and the heat consequently drifted about at the boat consequently drifted about at the mercy of the waves.

As the boat tossed about, the passengers became almost panic-stricken, many of them expecting that with each succeeding careen they were going to the bottom of Lake Michigan. Many of them possessed themselves of lifepreservers, and those who did not take this precaation to save their lives . 1 case of serious consequences, stood as close to the lifeboats as possible, to be

ready in case they were launched.

The officers of the boat finally succeeded in quieting the passengers by assuring them that there was no danger, and after the damage had been repaired, she continued on her way to this city, arriving at her dock at a late hour. Fair weather, followed by local thunderstorms; cooler Wednesday night.

Col. Bradley is announced to speak at London, Laurel County, next Monday. Well, let him talk. No one will pay much attention to what he may have to say from this on.

"As the Kentucky campaign goes on the prospects of Republican success grow brighter," remarks the Cincinnati Tribune. The Tribune editor has a very vivid imagination and is not very particular how he makes use of it. No one else would write such stuff as the above, since Bradley showed the white feather last Friday.

" 5-15-22 DAY."

The Boston Globe's Account of Maysville Commandery's Brilliant Reception at the Late Conclave.

[Boston Globe, August 29th.]

The famous "5-15-22" commandery, otherwise known as the Maysville Commandery of Kentucky, held a reception at the Oxford Hotel all day yesterday and last evening up to midnight.

And such a reception as it was-nothing like it has been seen in the city-it opened at 9 in the morning and it continued with unabated fervor until the large hall at the Oxford, which the Kentucky Grand Commandery has engaged for its headquarters, closed.

Everybody expected that the "5-15-22" Knights would have an original reception, and as a result delegates from nearly every commandery in the city at the present time, with their ladies, put in an up until 11:30 o'clock had a'splendid view

What added interest to this reception was the fact that it was given by the commandery which claims Very Em. Sir Warren La Rue Thomas, who will undoubtedly be the next Grand Master of the Grand Encampment of the United States, as an active member.

rived between 9 and 10 in the evening at Chenoweth's drug store. he was given a great ovation. He would have been around earlier, but he was obliged to attend a number of grand receptions, including the one to Grand Master McCurdy at Mechanic's Hall.

The Maysville Knights did everything in their power to make the reception a success, and so did the ladies who worked like Trojans all through the day this city, at 1 p. m. for the grounds. and evening to make the Boston conclave reception a memorable one. That they succeeded no one of the 10,000 or Miss Jennie Gibson will be solemnized more visitors will attempt to dispute.

Every Maysville Sir Knight, whether on the reception committee or not, Rev. T. W. Watts officiating. worked in the interests of "Old Kentuck," and in reality the reception was as much in the interests of the State of Kentucky as in that of Maysville. Kentuckians stand by each other, and each and all of them are proud of Deputy Grand Master Thomas.

The invitation to the reception read: continue all day and as long into the anything in that line, now's the time to night as you choose to remain. Come buy. Ballenger's stock is guaranteed. and make vourself at home with Kentuckians. Bring your ladies, bring your friends, bring everybody you know."

And judging from the crowd that attended, everybody did bring everybody that at the tended, everybody who was Miss Dee Wood, surfeared that she sustained a fractured vives him. Her many friends in Maysthat "everybody" knew to the reception, for "everybody" was curious to what the "5-15-22" Knights looked like.

They came and they were conquerednot only by the hospitality which the occasion afforded, but also because of the beautiful young women who were in company. attendance to entertain the visiting Sir Knights, and exchange cards with them.

The crowd was so great at this reception that the exchange cards and exchange badges ran out early in the evening, and many were disappointed at not being able to effect an interchange.

The hall was beautifully decorated with bunting, flags and Masonic emblems. At one end was the banner of the Maysville Commandery, and at the other the banner of the Grand Commandery of Kentucky, so that the Maysville reception might be said to have been a reception for the Knights of the State of Kentucky.

An orchestra was stationed at one end of the hall, which discoursed all of the Ripley fair, in a letter to the BULLETIN popular music of the day.

"Little Commandery" of Kentucky visited the Maysville Knights about 3, and they were received with loud applause.

The members of the reception committee were: Sir Knights G. S. Wall, R. L. Browning, O. C. Kuback, W. C. Miner, G. W. Rogers, J. W. Damron, E. A. Robinson, R. P. Jenkins, T. A. Keith, Bernard Witt, J. M. Webb, W. J. McKee, L. T. Everett, A. A. Hazelrigg and T. A. Garrigan, Miss Anna Witt, Mrs. W. J. McKeen, Miss Edna Rankin, Mrs. Eugene Robinson, Mrs. J. Damron, Mrs. Tom Keith, Mrs. B. G. Witt, Mrs. Apperson and Miss Hattie Apperson.

Every conceivable souvenir which the Maysville Commandery brought along be an interesting program on missions. with them was exhausted, and the Sir Every one invited to come, and a wel-Knights will travel around during the rest of this conclave without any exchange comforts unless they have some free. new cards printed. But then this is not surprising. The crowd at the reception was so great that it would have been almost impossible to provide for it.

While voices were buzzing and glasses were clinking there was a quick call to order, and every one was expectant. At this point Sir Knight Garrett S. Wall arose and presented Mr. Thomas Garrigan, General Passenger Agent of the C. and O. and the Big Four railroads, with a handsome corkscrew, having a solid silver handle. He received also two silver soup ladles for his wife.

Mr. Garrigan, although much sur-prised, managed to make a few remarks expressive of his appreciation. He was cheered and applauded most enthusiasFIRE INSURANCE. - Duley & Baldwin.

PROPRIETORS BEE HIVE

An Interesting Letter From Our Germantown Correspondent, Concerning People and Things.

[Correspondence Bulletin.]

PETOSKEY, MICH., August 30, '95. Had George D. Prentice been in this place last Sunday he would not have written "Tis holy Sabbath; hushed is the ploughboy's whistle and the milk maid's song."

The engines were puffing, the bells were ringing, the cars were rolling, carrying an evermoving, restless throng of human beings to the various places of amusement and pleasure, but to the credit of the vast number of strangers in our midst there were enough who respected the day and holy things to fill the various churches to overflowing.

There has been another large hotel erected here during the year and still so great is the influx of seekers of pleasure and health that lodg ing room is hard to find. The place is improving; a good many residences and business houses now in process of building. The main source of revenue is from the great and increasing number of people who flock to this region each returning season for health and recreation.

We have met a great many whose faces were familiar last season, and who will likely be here as long as hay-fever proves to be a mystery to the medical profession, and other people find rest in this romantic region from the heat and cares of business. Some are not here, but others, on inquiry we learn have been summoned to that land where hay-fever is not known.

We see here all sorts of people. The young maiden just lengthening her dresses, the widow who has just doffed her weeds, the young lady who with the aid of her parents is, like Micawber, hoping and wishing for something to turn up that may change her name and fortune, and alas a great many who having been left in the uncertain race of life, and although their silvery locks admonish them with disheartening certainty that they have no time to lose, still nurse a lingering hope that fortune may smile upon them and yet give to them another name.

At the hospitable cottage of James R. Slack and family, of Huntingdon, Indiana, on Bear Lake, the writer found an old Kentucky welcome, and spent a delightful day and hopes to spend many more. To read the railroad circulars you would think you could pull out fish as fast as you could throw in your hook, but three of us fished, morning and afternoon, on both sides of the boat, but as we had no one to work for us a miracle, our nets did not break, nor our lines were not made taut. We hope to do better next time. We forgot to spit on our hooks.

Among the Kentucky people we have met, Mrs. W. D. Thackston, of Millersburg, Mrs. Lida R. Price and Mr. Jesse Anderson, of Fleming County, Mr. M. J. Martin and daughter-ia-law, Mrs. Martin, of Lexington, Mrs. E. J. Rees and son, of Mason County, and a bright handsome brunette of Maysville, Miss Anna Belle Roser. They are all here with the writer to stay until the frosts begin to fall.

The little son of Mr. E. J. Rees was a pitiful victim of hay-fever when we started on the 20th of August. To-day he is bright and well. His mother will put him in school here and return home this week. Received the EVENING BULLETIN this morning. It was a welcome visitor and enjoyed by all the party.

Wrong Somewhere

-a dozen symptoms tell you so. Disordered stomach, unstrung nerves and loss of appetite; a feeling of indifference for the world and everybody in it, including yourself; eruptions that try to force the "badness" out through the skin all tell their tale.

It's Your Blood

that's raising all this disturbance. You'd turn away in disgust from a polluted stream of water, but you'll let your blood—the food of your vital organs—remain in just this condition. Don't do it;

BIG PROFITS Small Investments

Returning prosperity will make many rich, but nowhere can they make so much within a short time as by successful speculation in Grain, Provisions and Stock.

FOR EACH DOLLAR INVESTED can be made by our... .UU Systematic Plan of Speculation

originated by us. All successful speculators operate on a regular system.

It is a well-known fact that there are thousands of men in all parts of the United States who, by systematic trading through Chicago brokers, make large amounts every year, ranging from a few thousand dollars for the man who invests a hundred or two hundred dollars up to \$50,000 to \$100,000 or more by those who invest a few thousand.

It is also a fact that those who make the largest profits from comparatively small investments on this plan are persons who live away from Chicago and invest through brokers who thoroughly understand systematic trading.

Our plan does not risk the whole amount invested on any trade, but covers both sides, so that whether the market rises or falls it brings a steady profit that piles up enormously in a short time.
